Quotations subject to change without notice. Terms : [Net Cash in ten days, unless otherwise agreed. Prices to be understood f. o. b. New York, per 100 pounds.

For years we have taken great care when buying our Grass and Clover seeds to select only the very finest qualities, and we are to-day offering a stock of unsurpassed quality. The greatest care should be taken in buying grass seeds from Europe. Very often samples are offered of apparently good qualities, which look cheap, but after testing they are often found to be adulterated or old seeds, and consequently of very little agricultural value. We are buying all our European seeds direct from those places where they are grown, and with our long experience in this business we think we have to-day about as good a stock as can be obtained.

Our improved machinery enables us to offer the finest quality offered in any market.

In the interest of the Seed Trade we have added the purity and growth in percentages of as many seeds as are tested at this time. As customary, they are given as information only and not as a guarantee.

Samples and firm prices will be mailed upon application. Awaiting your commands, we remain,

Yours very truly,

HENRY NUNGESESSER & CO.,
